

Holy Days Housey-Housey

Instructions for Parents

This activity is based around the popular game of 'Bingo' - with **two** big differences - **firstly**, as well as numbers, each card contains words or phrases related to God's Holy Days, and **secondly**, there is **no money** involved! Otherwise, the game is played in the same way. The goal is simply to have FUN while becoming familiar with concepts associated with the Feast Days.

You will find three pages of '**Word Cards**' (a total of **45 cards** numbered 1-45 to roughly follow the sequencing of God's Plan), which you can cut out. You will need all of these cards in the game. You might want to glue them onto stiff card, such as a cereal packet, before cutting them out, and perhaps laminate them as well, to make them more durable. (From experience we've learned that the game will be well used!)

You will also find six pages of '**Housey-Housey Cards**' (two per page making a total of **12 cards**). The numbers on the cards go up from left to right. They can also be glued onto stiff card (and laminated if you want). If you have time, your children can colour in, or draw pictures or patterns in, the blank squares on the cards.

How to play the game

1. Choose one person to be the 'Caller' (card reader) and give them all of the Word Cards, which should be shuffled well before starting each game.
2. Give each of the other players one, two or three Housey-Housey cards depending on the number of players and their age (so you may not need all of the cards). At the end of each game you can give out new cards or swap cards between players.
3. Each player will need **15 'counters'** to cover a card. These could simply be pieces of paper cut to the same size as the squares on each card, coloured plastic 'tiddlywinks' counters, or any pieces of card or plastic, which can be placed on each square once the numbers and words have been called.
4. The Caller then takes a Word Card and calls out the number and word (or words) on it. The players look carefully on their Housey-Housey card(s) to see if they have the number and word(s). If they do then they cover them up with a counter (or counters) and if they don't they do nothing and wait for the next card to be read.
5. The winner is the first player who is able to cover all 15 words on (one of) his Housey-Housey card(s) with counters. When they put the last counter on the card they should call out "**HOLY DAYS**" - and they become the next Caller.
